APK-DM80

High Speed Tablet/Capsule Deblistering Machine

Product Introduction:

Aipak model APK-DM80 deblister machine is a specialized machine, which be used to dispart the packed material (capsule, tablets etc.) from PVC and aluminium foil of the blister package.This deblister machine adopts manual type feeding material.This machine has the features of fast in breeds changing, automatic dispart board and packed material,run safely and reliablly.This deblister machine doesn't need change mould can adapt to more different shape aluminum-plastic plate. Design of GMP.

Features:

1.Simple structure, easy operation, does not need professional operation.
2.High efficiency and reliable operation.
3.Made by stainless steel is completely sealed.

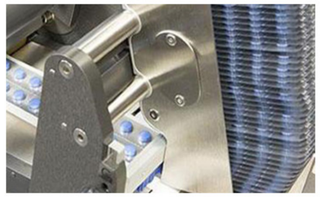

Technical Paramewer:

Model	APK-DM80
Work mode	Semi-Automation
Counting mode	Manual
Capacity	25-35 plates/min
Scope of application	Capsules, tablets, soft capsules, candy, etc. All aluminum plastic packaging, aluminum plastic aluminum packaging
Applicable medicine plate	The granules should be arranged horizontally and vertically.
Power requirement	220V AC:50-60HZ
Power rating	60W
Weight of equipment	18KG
Outline dimension	285*290*285mm
Equipment material	SS304

APK-DM120

Pill Tablet Deblistering Machine

Product Introduction:

Aipak APK-DM120 deblister machine is a specialized machine, which be used to dispart the packed material (capsule, tablet etc.) from PVC and aluminum foil of the blister package. This deblister machine has the features of fast in breeds change, automatic dispart board and packed material, run safely and reliably, is suitable for more shapes of the aluminum-plastic board. Its design meets with GMP.

Features:

1.Good appearance, concise and generous, not complicated, easy to clean, humanized design, easy to use and safe.
2.304 stainless steel, excellent material; pure PU material roller, wear-resistant and durable, never chip, to maximize the protection of drugs from any secondary pollution.

Technical Paramewer:

Model	APK-DM120
Work mode	Full-Automation
Counting mode	Manual
Capacity	50-65plate/min
Scope of application	Capsules, tablets, soft capsules, candy, etc. All aluminum plastic packaging, aluminum plastic aluminum packaging
Applicable medicine plate	The granules should be arranged horizontally and vertically.
Power requirement	220V AC:50-60HZ
Power rating	180W
Weight of equipment	25KG
Outline dimension	350*380*510mm
Equipment material	SS304

APK-DM120A

Aluminum Plastic Capsule Deblister Machine

Features:

1.Pure power,Without fragment,completely GMP standard.
2.Applicable for every model No. Of capsule,more than 99% recover rate.
3.Recover powder of tens of thousands of capsules within 20 minutes.

Product Introduction:

Aipak APK-DM120ADrug Deblister Machine is applied to eliminate and recycle capsule, tablet, sugar-coated tablet and so on. To solve the plate finished product capsule, tablet, sugar pill, and the separation of aluminum-plastic plate, to reduce the labor strength and improve the working efficiency. Make the whole recycling process more standard, simplified, greatly improve production efficiency.

Technical Paramewer:

Model	APK-DM120A
Work mode	Full-Automation
Counting mode	Manual
Capacity	80-95plate/min
Scope of application	Capsules, tablets, soft capsules, candy, etc. All aluminum plastic packaging, aluminum plastic aluminum packaging
Applicable medicine plate	The granules should be arranged horizontally and vertically.
Power requirement	220V AC:50-60HZ
Power rating	180W
Weight of equipment	35KG
Outline dimension	400*400*950mm
Equipment material	SS304

APK-DM130

Aluminum plastic Deblister Machine

Product Introduction:

Aipak APK-DM130 automatic pharmaceutical deblistering machine is suitable for recovering unqualified blister pack products such as capsules, tablets, soft gels, candies or other similar products. In order to reduce the labor force for Alu/Pvc plate recycling .Our model APK-DM130 deblistering machine could recycling job, it take the whole recycle process more easy and normative ,and highly improve the production efficiency.

Features:

1.It is good in appearance, simple and generous, not complicated, easy to clean, humanized in design, easy to use and safe.
2.The use of excellent material 304 stainless steel; the use of pure PU material roller, which is wear-resistant and will never be flaky so as to protect the drug from any secondary pollution.

Technical Paramewer:

Model	APK-DM130
Work mode	Full-Automation
Counting mode	Automation
Capacity	100-120plates/min
Scope of application	Capsules, tablets, soft capsules, candy, etc. All aluminum plastic packaging, aluminum plastic aluminum packaging
Applicable medicine plate	The granules should be arranged horizontally and vertically.
Power requirement	220V AC:50-60HZ
Power rating	180W
Weight of equipment	38KG
Outline dimension	400*400*1100mm
Equipment material	SS304

APK-DM160

Pill Tablet Capsule Blister Packing Deblister Machine

Product Introduction:

Aipak APK-DM160 blister packing rejector/deblister mahine is an automatic tablet picking (stripping) machine for recovering drugs from the packaging board of aluminum plastic foam cover with defects. The deblister machine is composed of 304 grade stainless steel shell, micro motor, primary reducer, roller combination, guide plate combination particle rubber plate sequential connection, equipped with electrical brake switch and lock switch.

Features:

1.Good appearance, concise and generous, not complicated, easy to clean, humanized design, easy to use and safe.
2.304 stainless steel, excellent material; pure PU material roller, wear-resistant and durable, never chip, to maximize the protection of drugs from any secondary pollution.

Technical Paramewer:

Model	APK-DM160
Work mode	Full-Automation
Counting mode	Automation
Capacity	220-280plate/min
Scope of application	Capsules, tablets, soft capsules, candy, etc. All aluminum plastic packaging, aluminum plastic aluminum packaging
Applicable medicine plate	The granules should be arranged horizontally and vertically.
Power requirement	220V AC:50-60HZ
Power rating	360W
Weight of equipment	65KG
Outline dimension	900*500*1200mm
Equipment material	SS304
